PAINTING & FINISHING

METcase™

Enclosures and front panels finished in your corporate colors

Our in-house facilities include a large powder paint line and a wet paint cubicle.

Optional Stocked Powder Paints (Listed below)

We keep a large selection powder paints in RAL and Pantone colors in stock. There is no additional charge, or minimum order quantity, for painting our standard enclosures in one of our stocked paints. Simply select your desired color or color combination from the list below.

Note: color images are provided as a guide only. Please refer to the exact RAL or Pantone references before finalizing your color choice.
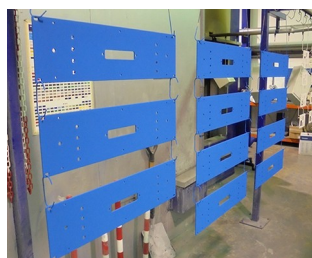

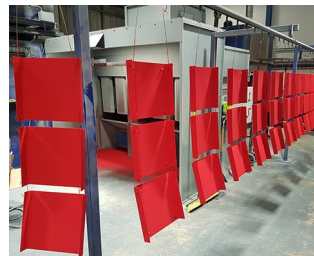

Custom Colors

We can also supply enclosures, front panels and custom metalwork painted in your desired paint colour or special finish. The typical minimum order quantity for special colour enclosures and front panels is 10 to 25 units, depending upon the color required.

We generally work with RAL colors, but can match other colors on demand. Talk to our sales team if you need a specific color or finish.
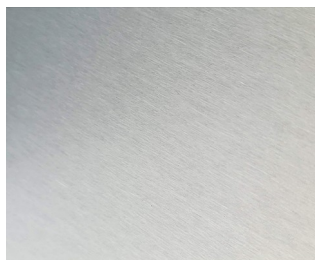

What we offer:

- Powder polyester painting - tough, high quality finish in smooth, fine and heavy textures
- Wet painting - tough, chip resistant, in smooth and textured finishes
- Nickel loaded RFI/EMI shielding lacquers for plastic parts
- Linishing of aluminum panels for a blemish free finish
- Natural and color anodizing of aluminum panels
- Iridite NCP conductive/anti-corrosion finish on aluminium panels
- Zinc and clear passivate of CR4 steel panels
- Full colour CMYK digital printing.

Use the contact form or call our sales team on (800) 965-9872 for more information and a quotation.
